BACKGROUND

My passion for narrative-led environmental and spatial design led me from my former career as an architect in Thailand to California to work in stage, film, editorial and experiential design. I hold a Bachelor of Architecture degree from Chulalongkorn University Bangkok and MFA in design for theater, film, and television from University of California Los Angeles.

22

I'm a production designer, scenic designer, concept artist and an ADG local 800 set designer.
